

NEW-YORK DAILY TRIBUNE, SATURDAY, NOVEMBER 22, 1851.

Commercial Matters Continued from Fifth Page.

important change. For Bank Stocks there is a fair inquiry, at about previous prices. Prices of stocks are in considerable demand and advancing. Sizes of 1867 sold at 116. The market at the close had a decidedly firm aspect.

There has been an active market for Sterling at 16@10 for leading bills, with some drawers asking more. Frances are 5 15@5 13. The Southern mail-to-day brought a considerable supply of Sterling and some half million of Franks, which were sold at 9@9 1/2 for Sterling and 5 1/2@5 1/2 for Franks. The market closed firm. Amsterdam 111@111, Hamburg 36@36 1/2, Bremen 78@79.

In Freight there is not much doing, but rates are without change. Engagements 2,000 or 3,000 bbls. Flour to Liverpool at 12d., Cotton 1d., 300 merces Beef, 2s. 6d., Grain, 4@4d., Resin 1d., Staves, 2s., To London 2000 bbls. Flour, 1s. 9d., 600 bbls. Naval Stores, 2s. To Glasgow Flour 18d.

To Havre Cotton is held at 1s. A vessel was chartered to take Staves to Marseilles at \$13 for light pipes, and another to load Staves at Norfolk for the Windward Islands at \$11. To California there is a moderate business doing at 45@50c.

The steamer of to-morrow has a million and fifty thousand dollars on board to-night, which will probably be increased to eleven hundred thousand to-morrow.

The money market is easier again on call among the banking houses in the street, although there is a good demand. There has been considerable interchange of specie to-day among the Banks, and they are less free lenders than last week, either on call or paper. The wants of the mercantile community are, however, now so much reduced that the effect is felt in the greater abundance of capital employed on call, so that although the Banks should contract to the same extent as they did two or three months since, the street would not feel it as sensibly as it then did. The rates of interest are unchanged, but those of paper, excepting strictly first-class, have an upward tendency.

The amount received at the Sub-Treasury was \$54,020, paid \$5,686, balance \$3,216,804.

The building No. 44 Wall-st., now occupied by Messrs. Jacob Little & Co., has been a Banking House, for \$100,000. Mr. Little purchased it some two or three years since for \$75,000 and added an upper story to it. It is one of the best locations in the street for a bank, and the Bank of North America is fortunate in getting possession of it.

There is a new demand for Boots and Shoes for the California market, but only to a small extent, as the stock is very small. Fine city made Shoes are in good demand and in price. The stock left over, however, very light. Preparations are making for a large increase of production next year, which is warranted by the increase of demand, which has been developed this season.

The following Banks have notified the Bank Superintendent of their intention to wind up and withdraw their circulating notes:

Adams Bank, American Bank, Champlain Bank, Cortland County Bank, Commercial Bank of Lockport, Knickerbocker Bank, McIntyre Bank, Merchants' Bank, Washington County, Merchants' Bank, Ontario County, Northern Bank of New-York, Oswego County Bank.

The above Banks are all safely secured, either by United States of New-York and United States Stocks, and their places have been supplied by the Red Dog currency of the Free New Jersey Banks.

The returns of the New-Orleans and Philadelphia Mints for October completes the following table of gold deposits from January to November 10:
